Our Businesses

<p style="text-align: center;">Nonwoven Fabrics</p>  <p>Literally not woven fabric. Not only flooring known as “Needle punch carpet”, our nonwoven fabrics have many possibilities of application. We can adjust hardness and thickness according to customer’s order.</p>	<p style="text-align: center;">Artificial Turfs</p>  <p>We are one of few companies in tufted turf field which has an integrated system for turf production. Having been producing various kinds of turfs such as plastic turfs, we have established a firm position in this field.</p>
<p style="text-align: center;">Blown Film</p>  <p>We produce plastic bags and trash bags, which are necessary for our life. According to customer’s needs, we can add deodorant, antibacterial, or freshness-keeping effects to the products.</p>	<p style="text-align: center;">Rush</p>  <p>Our rush rugs have cushioning property with urethane backing, durability property with nonwoven fabric backing, or anti-slip effect. We also have unit tatami of sound proof type and real-looking type.</p>
<p style="text-align: center;">Injection</p>  <p>Our high capacity of production covers from gears and levers to car parts, lens, daily commodities. With 18 injection molding machines, we can answer customer’s needs from small lot to full production, having gained a good reputation.</p>	<p style="text-align: center;">Extrusion</p>  <p>When numbers of reeds began to decrease around 1955, we started to use PVC to produce screen. This is the starting point of our extrusion technology. Now we are doing profile extrusion using various kinds of resin materials.</p>
